

Diamond Fold Poppies

Stamp Sets: Pleasant Poppies, Tiny Tags

Ink: Black Stazon, Calypso Coral and Lucky Limeade

Paper:

Very Vanilla 2 ½" x 2 ½"

Calypso Coral 2 ¾" x 2 ¾"

(2) 4 ¼" x 2 1/8"

Basic Black 2 ¾" x 2 ¾"

Lucky Limeade 3" x 3"

Neutral Print Patterns Designer Series Paper 4" x 12"

Accessories: Scoring tool, Blender Pens, bone folder

Back side

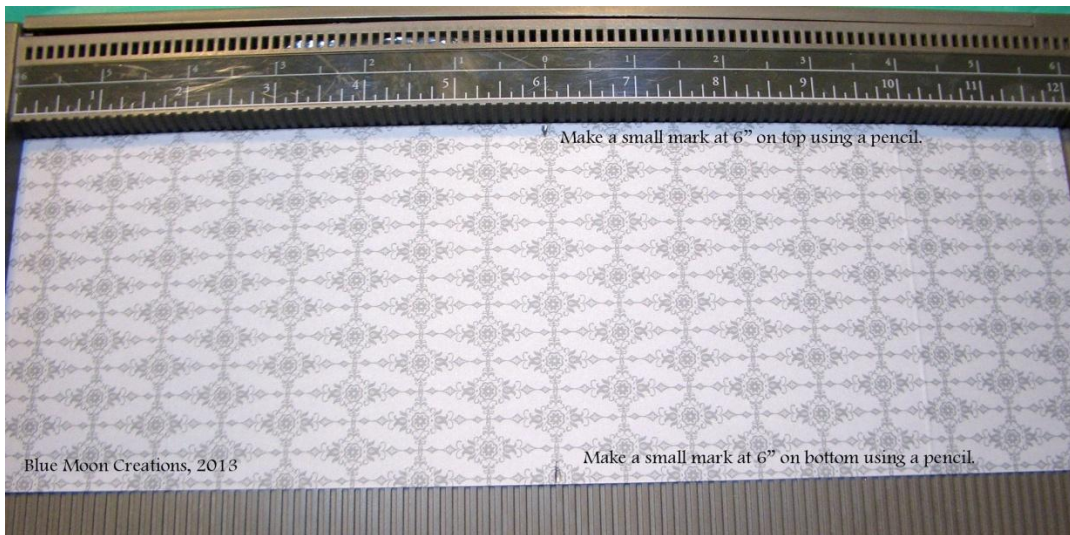

TIP: Use your bone folder to get crisp score lines on all steps.

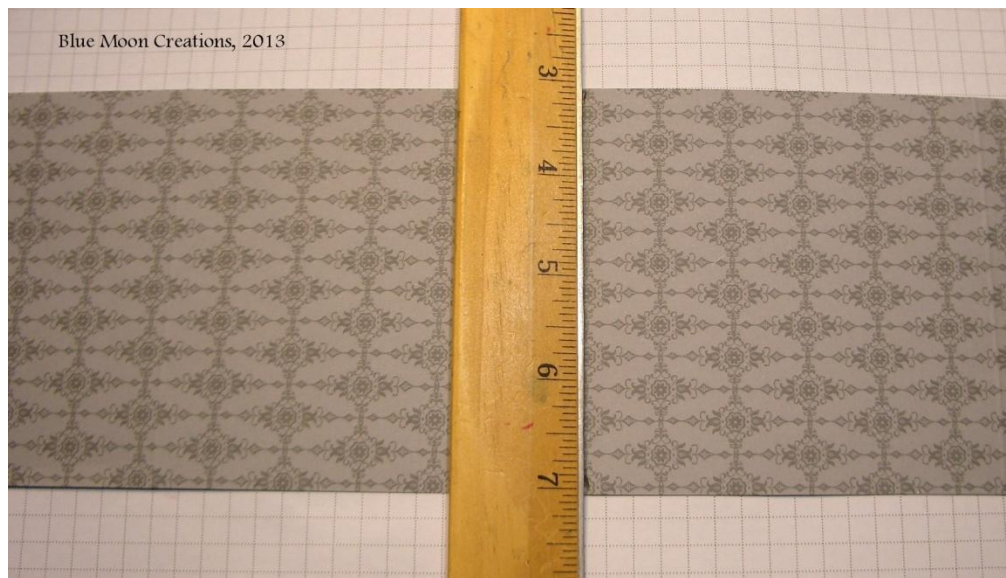

1. Score 4"x 12" piece of Designer Series Paper at 2" and 10".

Tip: It is best to use paper with two different patterns on the front and back sides. It is easier to keep the front and back folds straight if there are different patterns. Decide which pattern you want to be on the front of the card.

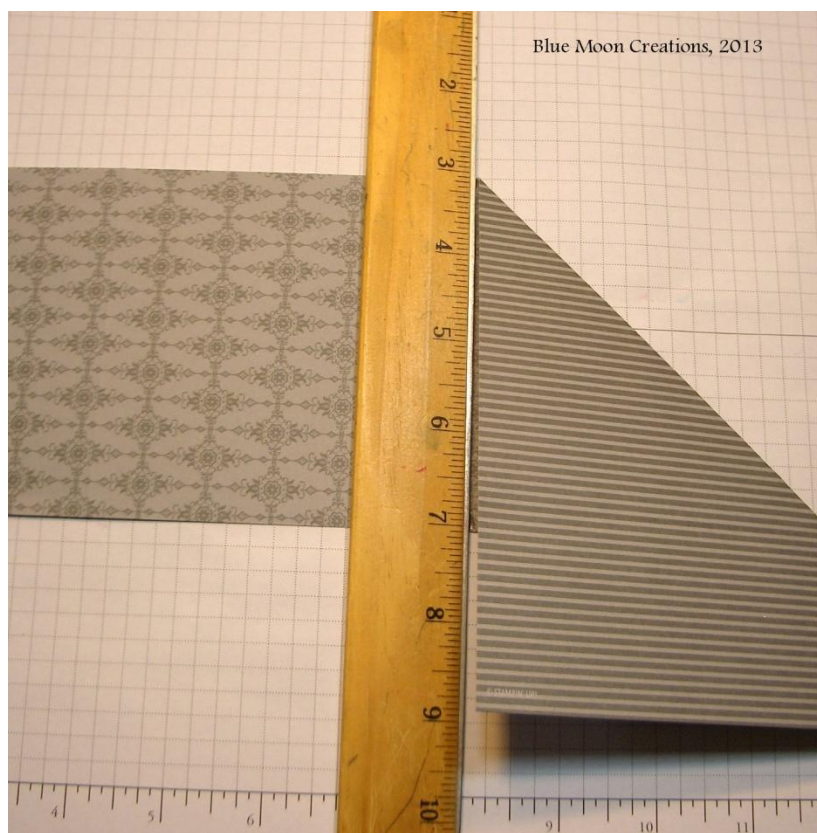

2. Fold along score lines using a bone folder and then turn the paper to the other side.

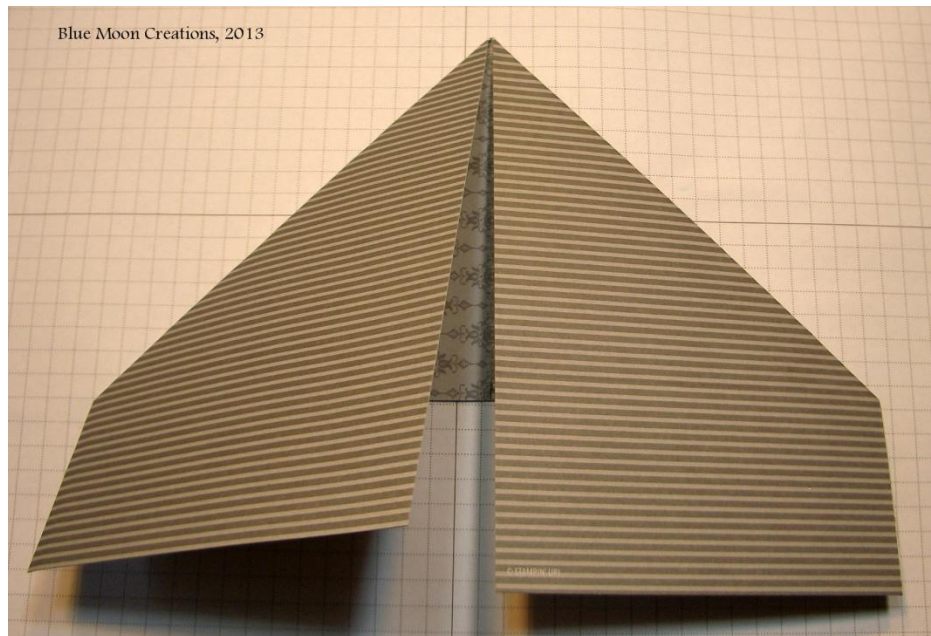

3. On the back, mark the 6" on both the top and the bottom using a pencil.

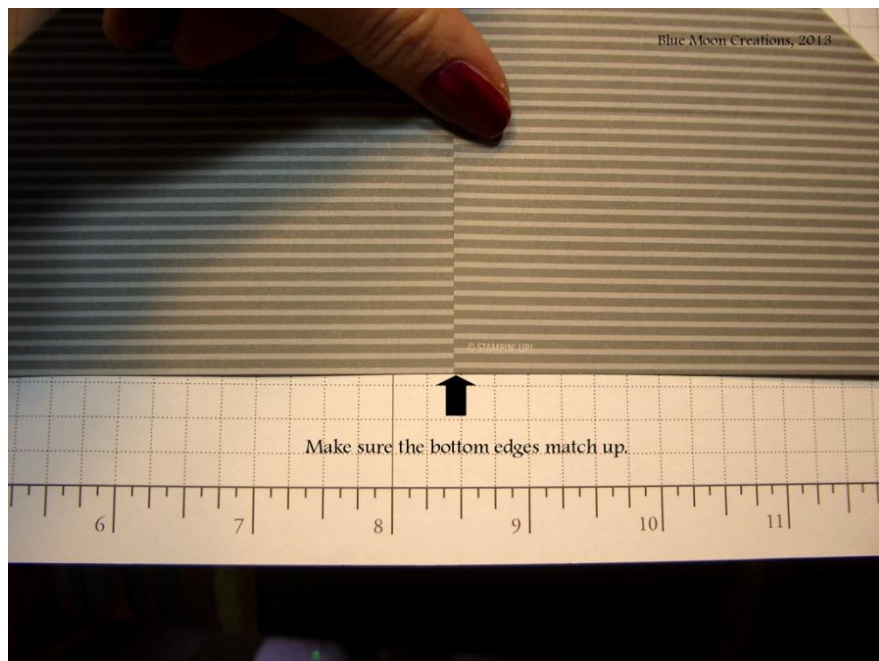

4. Take one end of the paper and fold it down diagonally at the 6" mark.

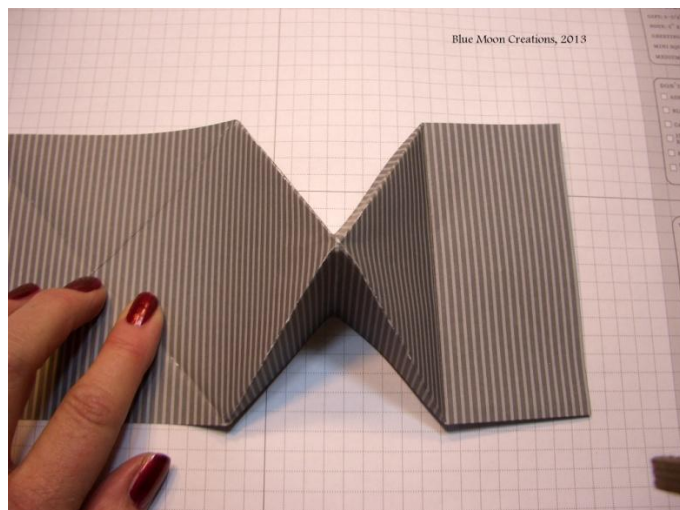

TIP: Line up a ruler at the 2 6" marks and use the edge of the ruler as your guide.

5. Fold down the other side.

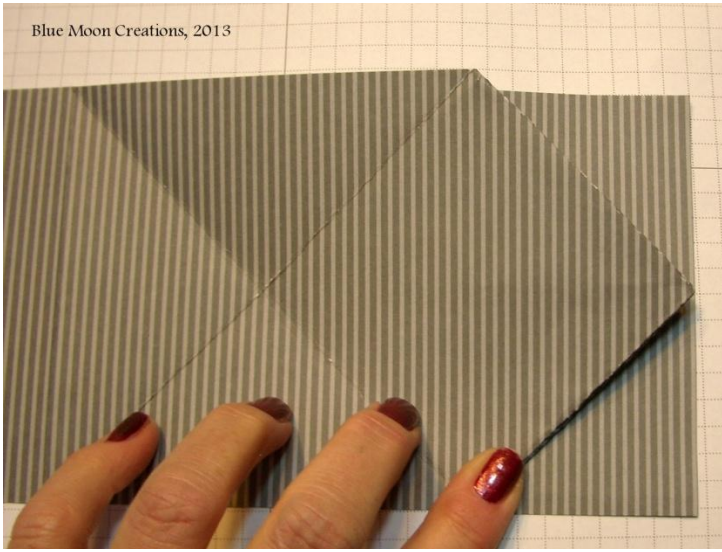

TIP: Make sure the bottom edges line up.

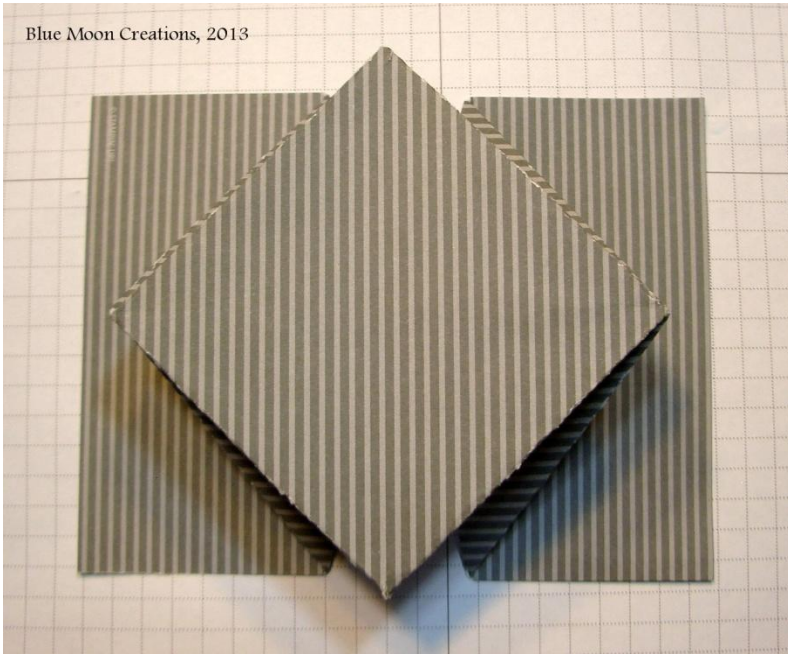

6. Unfold paper. Use your bone folder to get crisp score lines.

Hold strip vertically. Where the score lines intersect press the corners in to create a point.

7. Fold the sides down to the edge.

Use a bone folder to get crisp score lines.

8. Open and turn the paper to the other 6" mark. Repeat steps 4-7 above. Again, make sure your bottom edges line up. Use a bone folder to get crisp score lines.

9. Stamp poppies on Very Vanilla card stock using Black Stazon. Stamp greeting from Tiny Tags.

10. Color poppies using Calypso Coral and Lucky Limeade ink. Make a "palette" of ink in the inside of the stamp pad lid by closing it and squeezing the top. Pick up the color using the blender pen and color in the image.

11. Adhere to Calypso Coral card mat.

12. Adhere Basic Black card stock to Lucky Limeade mat. Place on the "diamond" of the card base. Attach the matted poppies.

13. Attach 2 pieces of Calypso Coral card stock to the back side of the diamond fold to complete.
