

Welcoming Woods Faker Shaker Card

Stamp Sets: Welcoming Woods Ink: Night of Navy, Versamark

Paper: Basic White, Misty Moonlight, Beauty

of the Earth Designer Series Paper

Accessories: Stampin' Cut & Emboss Machine, Diorama Dies, heat tool, white embossing powder, Tear & Tape Adhesive, clear bag, Scotch Tape, sequins from my stash, Mini

**Dimensionals** 

## Cut and assemble card pieces:

- 1. Attach Beauty of the Woods DSP to Basic White card base.
- Cut out opening using die-cut machine and second-largest Diorama die. Save the cut-out for the inside of the card.
- 2. Stamp trees from Welcoming Woods on Misty Moonlight card stock using Versamark ink. Heat emboss using a heat tool and white embossing powder. Cut image using die-cut machine and the fourth-largest Diorama die.
- 3. Cut Basic White mat using die-cut machine and third-largest Diorama die.

4. Attach the embossed piece to saved Designer Series Paper. Attach to the inside of the card.

5. Fill a clear bag large enough to cover the opening on the card base using sequins, glitter, or confetti. For this card, I used sequins from my stash. Close the open end of the bag and tape shut using Scotch Tape or similar.
6. Attach Tear & Tape Adhesive around the opening on the inside of the card.

7. Remove the backing, and attach the bag.

8. Apply more Tear & Tape Adhesive on the four sides of the bag.

- 9. Remove the backing, and attach the Basic White diorama layer\*
- \*Because my Basic White diorama layer didn't entirely cover the strip of Tear & Tape Adhesive along the bottom edge, I added a 3/4" wide piece of Misty Moonlight to cover it.

9. Stamp greeting and snowflakes on a scrap piece of Basic White card stock using Night of Navy ink. Attach to a Misty Moonlight mat. Attach to card front using Mini Dimensionals to pop it up.
